Living Wage for All Campaign

**All working people in the U.S.A.
need affordable, accessible and
adequate time to care.**

Paid Family and Medical Leave:

- builds the base for a living wage
- strengthens families and communities
- reduces racial inequality
- supports working mothers, since care work falls most on women

JOIN US in advocating for the FAMILY ACT, federal legislation that will:

- Guarantee wages to working people needing time to care for a new child, a personal or family illness
- Guarantee right to return to your job
- Benefit employees and business owners alike by pooling small contributions from both

WE NEED PAID FAMILY AND MEDICAL LEAVE FOR ALL!
