

Climate Justice

CAMPAIGN: JUST ENERGY FOR ALL

Be stewards of God's creation: Work with companies and governments for clean, renewable energy through a just and equitable transition.

An illustration of a factory with several smokestacks emitting thick, dark grey smoke that rises into the sky. In the background, a city skyline is visible.

A major contributor to air pollution is the **BURNING of fossil fuels.**

The #1 contributor to climate change is greenhouse gas emissions from fossil fuels used for electricity, transportation and heat.

An illustration showing a row of grey buildings with red roofs. Below the buildings, several white cars are shown, each emitting a small white cloud of smoke. The background is a light blue sky.

* U.S. Stats

500,000
school days missed

SCHOOL

An illustration of a school building with a red roof and grey walls. The word "SCHOOL" is written in white on a red rectangular background.

annually by U.S. children are due to ozone pollution from fossil fuels.

100%

An illustration of a sustainable city with green buildings, solar panels, wind turbines, trees, a house, a bicycle, and a car. The sun is shining in the sky.

100 cities in the United States and 100+ companies have already committed to move to 100 percent renewable energy.
